"Knowledge is too important to leave in the hands of the Bosses."

The Consumer Price Index (CPI) rose to 3.3% in October 2020

The food price increased to 5.6% in October 2020 from 4.2% in September 2020.

Transport inflation declined by - 0.5% in October 2020 from 0.3% in September 2020.

Public transport inflation increased to 2.9% in October 2020 from 1.6% in September 2020 (Buses, trains and other forms of transport that are available to the public charge set fares and run on fixed routes.)

Administrator's price (school, telephone fees, electricity, trains, and petrol/paraffin) slowed down to 0.9% in October 2020 from 1.8% in September 2020.

There is more than one inflation number. The inflation rate that is reported in mainstream media is the average inflation rate. Different groups, from the very poor to the wealthy, can experience different rates of inflation because they buy different things.

The very low group (Decile 1) experienced an inflation rate of 3.4%, lower than headline annualised inflation rate of 3.3%, while the very high expenditure group (Decile 10) had an inflation rate of 3.5%, which was higher when compared to the 3.3% in October 2020.
