# Inflation Monitor

## The Consumer Price Index accelerated to 7.4% in June 2022

Inflation, which means a sustained increase in the general level of prices of goods and services, is measured as an annual percentage increase (for example, June 2021 to June 2022). A falling rate of inflation means that prices are rising at a slower rate.

The headline annual inflation rate increased to 7.4% in June 2022 from 6.5% in May 2022. The Consumer Price Index (CPI) increased by 1.1% month-on-month in June 2022.

The **food price** increased to 9% in June 2022 from 7.8% in May 2022.

**Transport inflation** increased to 20% in June 2022 from 15.7% in May 2022.

**Public transport inflation** declined to 14.3% in June 2022 from 12.5% in May 2022.

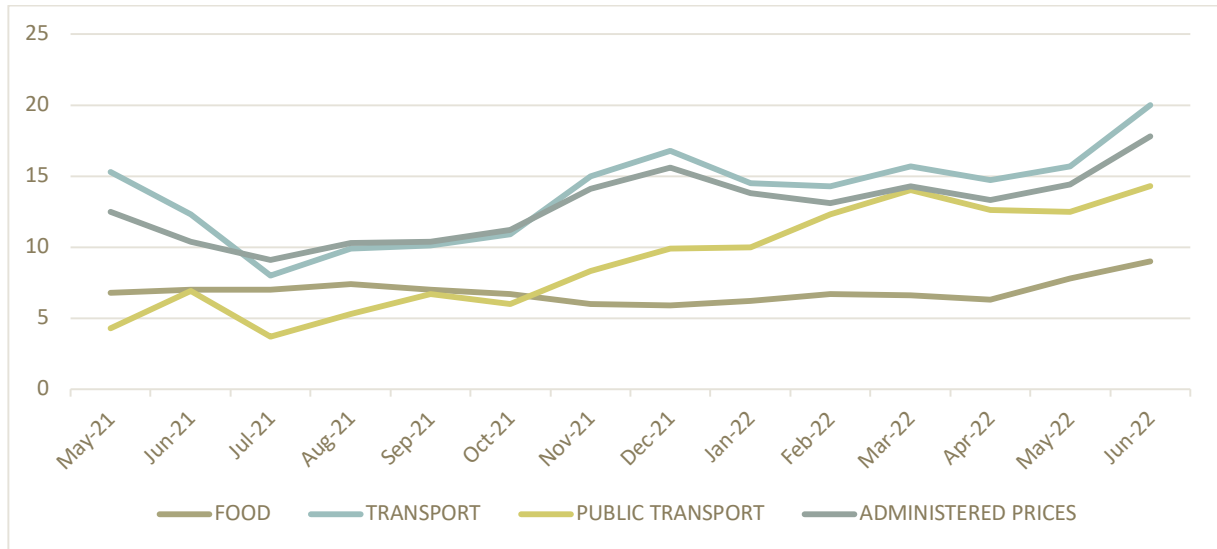

The **administrator's price** (school, telephone fees, electricity, trains, and petrol/paraffin) increased to 17.8% in June 2022 from 14.4% in May 2022.

Statistics South Africa divides household monthly expenditure into 10 deciles. Decile 10 expenditure was higher than the decile 1 expenditure, indicating a high level of inequality.

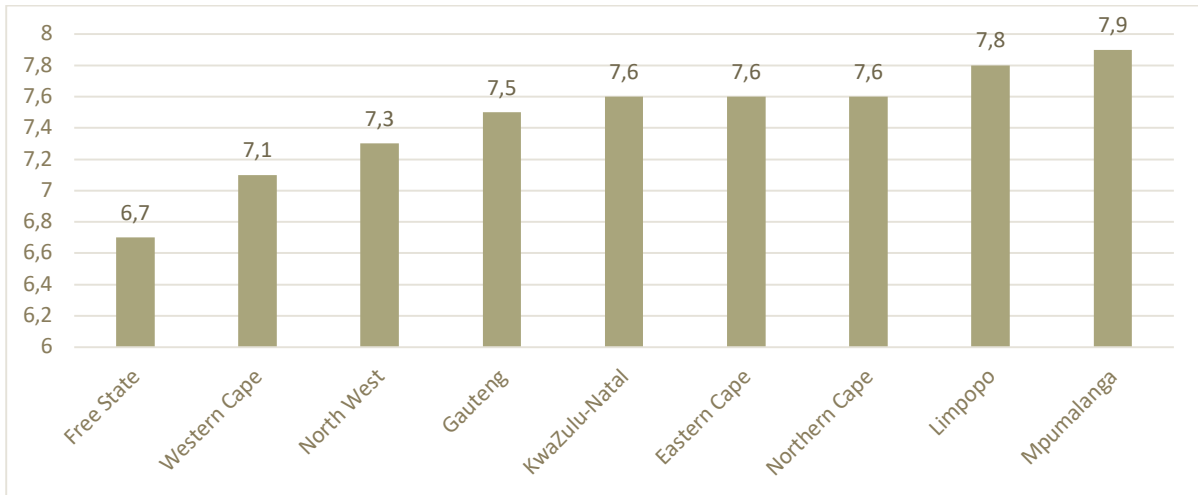

**Table 3: Annualised inflation by expenditure group | June 2022**

	Monthly expenditure	Inflation Rate June-22
<b>Average annual CPI</b>		<b>7.4%</b>
Decile 1	Up to R1477 per month	9.1%
Decile 2	R1477 up to R2456 per month	8.5%
Decile 3	R2456 up to R3549 per month	7.5%
Decile 4	R3549 up to R4742 per month	7%
Decile 5	R4742 up to R6151 per month	6.9%
Decile 6	R6151 up to R7907 per month	6.7%
Decile 7	R7907 up to R10352 per month	7.1%
Decile 8	R10352 up to R14419 per month	7.5%
Decile 9	R14419 up to R22492 per month	7.6%
Decile 10	R22492 and more...	7.3%

There is more than one inflation number. Different groups, from the very poor to the wealthy, can experience different rates of inflation because they buy different things. The very low group (Decile 1) experienced an inflation rate of 9%, which was higher than the headline annualised inflation rate of 7.4% in June 2022, while the very high expenditure group (Decile 10) had an inflation rate of 7.3%, which was 0.1% lower than the inflation rate of 7.4%.

The provinces with an annual inflation rate **lower than or equal to headline inflation** were Free State (6.7%), Western Cape (7.1%) and North West (7.3%). The provinces with an annual inflation rate **higher than headline inflation** were Gauteng (7.5%), KwaZulu-Natal (7.6%), Eastern Cape (7.6%), Northern Cape (7.6%), Limpopo (7.8%) and Mpumalanga (7.9%).

An administered price is defined as the price of a product which is set consciously by an individual producer or group of producers and/or any price, which can be determined or influenced by government, either directly or through one or other government agencies/institution without reference to market forces. For example, school fees, telephone fees, electricity, trains, petrol/paraffin, cell calls and public transport. This rate is incorporated into the overall CPI inflation rate.
